Hi Deb,

I have a free standing basketball hoop that I would like to donate to the district. I believe that it adjusts from 7.5' to 10'. Current position as shown in picture is 10'. It is located at the end of the shared driveway between 879 & 885 Scottsville Mumford Rd, Scottsville. Currently, there is water in the base to weight it down. This can be easily drained. The district would have to fill the base with sand or stones, once in place.

Thanks! Sandi
