

WHEATLAND-CHILI CENTRAL SCHOOL DISTRICT

BOARD OF EDUCATION PRIORITIES 2019-2020

Plan/Do/Study/Act (6.10.19)

1. Support a **curricular strategy** that develops College and Career Readiness Skills resulting in a well-rounded educational experience for students.

Accountability measures will include:

- ELA and Math progress using Every Student Succeeds Act (ESSA) Measures of Interim Progress (MIP).
- K-12 STEM opportunity progress using student involvement/participation data in K-12 STEM experiences.
- College and Career Readiness progress using Measure of Interim Progress (MIP).
- Positive connections to students receiving career and technical options outside of the District using Survey data.
- Students earning Advanced Designation Regents diploma progress using Cohort Graduation data.
- Engaging alumni using Graduation Surveys and other tools to develop a comprehensive profile.
- Customer-focused staff engaged in effective communication skills to reach out to parents and the general community using the Climate Survey and other Survey data.

2. Support an environment of **high expectations for all staff**.

Accountability measures will include:

- Increased capacity for staff through onboarding activities during new staff orientation focused on a variety of topics including but not limited to the Code of Character, Conduct and Support.
- Professional development opportunities for all staff to be continuous learners and promote innovation using My Learning Plan data.

3. Continue to focus on **social and emotional learning** and **culturally responsive teaching**.

Accountability measures will include:

- Professional development linked to tiered levels of intervention using My Learning Plan data.
- Implementation of the Code of Character, Conduct and Support to support the infusion of social/emotional learning and culturally responsive education using Climate Survey data.
- Partnerships within the mental health community using participation data.

4. Continue to support **integrated technology** in every classroom.

Accountability measures will include:

- Integrating the International Society for Technology in Education (ISTE) standards for educators and students K-12 using BrightBytes data.
- Support for integration of current technology into instruction using BrightBytes data.

5. Monitor and manage the **district facilities and budget** to maximize resources based on current and future needs.

Accountability measures will include:

- Current capital project monitoring using Construction Manager progress reports.
- Security, safety infrastructure implementation using Climate Survey data.
- Develop fiscally responsible budget based on five-year plan for use of reserves.
- Effective oversight of fiscal management using Fund Balance Summary and Revenue/Expense Summary reports.
