Registration is open for the following programs:

**Identifying Plants at 55 MPH, Wednesday, March 11 at 7 pm** - This presentation gives some simple techniques to help you identify trees by observation and using your senses. While this is not a substitute for a tree identification class, it should give you enough information to identify many common trees in our landscape.

**Balance, Wednesday, March 18 at 2 pm** - Come and learn from Dr. Michael Dix, Physical Therapist, about the risks associated with falling and how they can be monumental. Find out how your balance works and better understand the simple things that you can do to improve it, including tests and exercises.

**There is no registration for the following programs unless otherwise indicated:**
