WHEATLAND-CHILI CENTRAL SCHOOL DISTRICT

ABOUT US

The Wheatland-Chili School District is committed to educational excellence by empowering all individuals to be life-long learners and responsible, contributing members of society. The staff, parents, students and community support this commitment by holding high educational standards for all; developing academic excellence in each student; encouraging positive physical, social and emotional growth; and providing the appropriate resources to accomplish these goals in a safe, challenging, flexible and supportive environment.

Wheatland-Chili, the smallest of the county's school districts, is located in Scottsville, a small historic village ten miles south of Rochester. The district strives to provide a broad curriculum in a personal setting. Wheatland-Chili takes pride in the fact that its size and character make possible a real sense of community. This, in turn, allows each student to stand out as an individual –to be a person known and contributing to the larger community.
